

Residual analysis — structure in the residuals reveals missed dynamics (h=3, seed-mean)

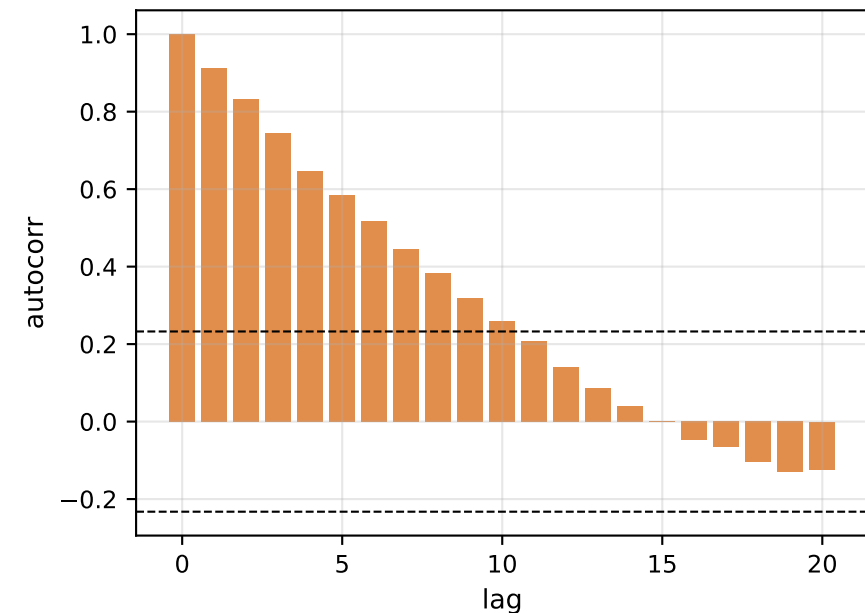

(a) Classical H=4 — residual vs time

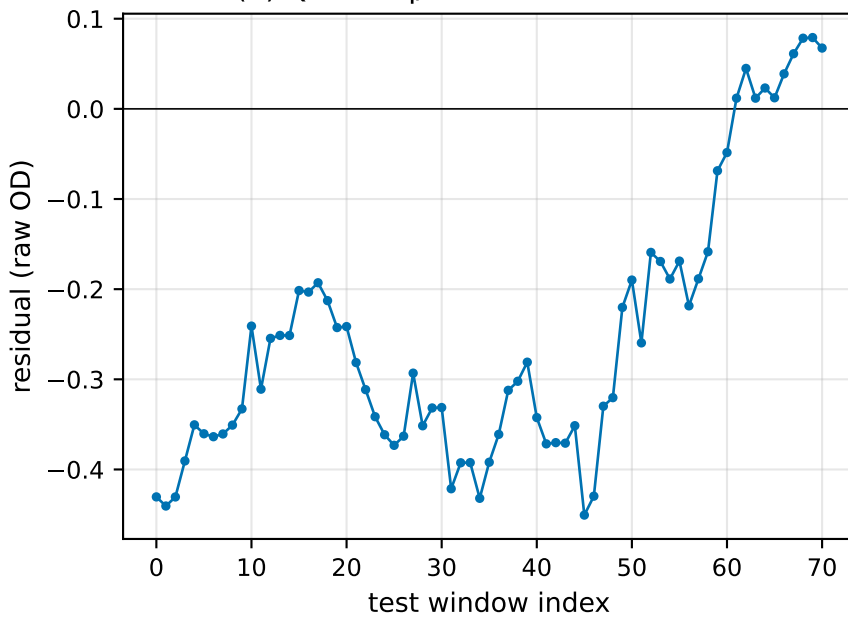

(b) Classical H=4 — residual histogram

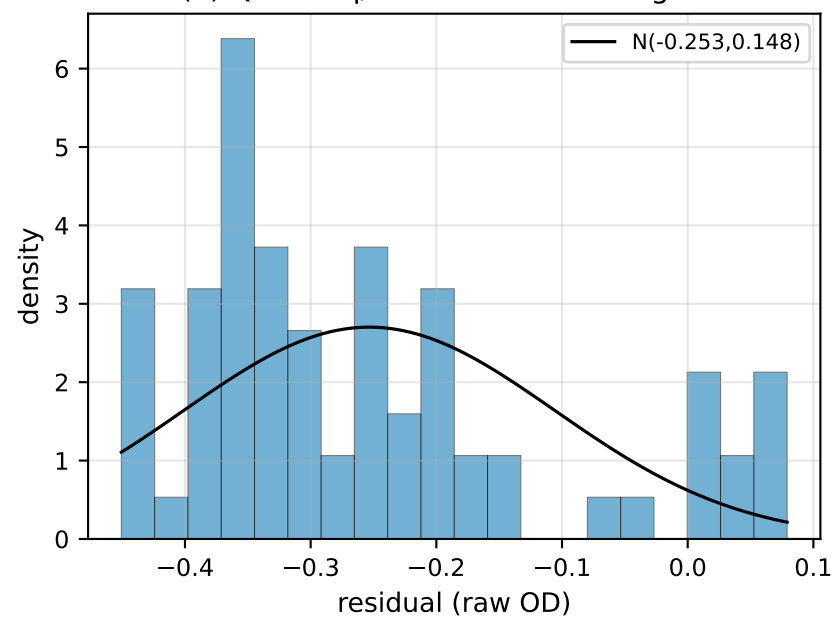

(c) Classical H=4 — residual ACF

(d) QLNN 4q/3L — residual vs time

(e) QLNN 4q/3L — residual histogram

(f) QLNN 4q/3L — residual ACF
